The Ultimate in switching Performance

The N Scale EMD NW2 from Kato USA offers premium pulling in a pint-sized package - thanks to its specialized motor design which puts the full power of a Kato flywheel drive at your disposal without sacrificing the detail you expect; full cab interiors, directional front and rear headlights with illuminating numberboards, and a DCC friendly mechanism that can be upgraded by modelers or can come with pre-installed DCC from Kato USA's Kobo custom shop (available as a special order; contact your local hobby shop for details).

The initial release for these units will come in Union Pacific, Northern Pacific, and Burlington Northern paint schemes, and are ideal for modelers of 40's and 50's era passenger or freight operations.

Whether shuffling cars from the #106-080 Union Pacific "City of Los Angeles" name train or rearranging freight cars in a yard, the EMD NW2 is ideally suited for any job, no matter how big or how small!

Item #176-4369	NEW N EMD NW2 Burlington Northern #504	\$115 MSRP
Item #176-4370	NEW N EMD NW2 Burlington Northern #513	\$115 MSRP
Item #176-4371	NEW N EMD NW2 Northern Pacific #102	\$115 MSRP
