KATO
PRECISION RAILROAD MODELS

THREE NEW ELECTRIC LOCOMOTIVES JOIN THE RANKS OF KATO'S AMTRAK® FLEET!
INCLUDING #600 - "DAVID L. GUNN" WITH SPECIAL LETTERING!

This year Kato is adding three new electric locomotives to its Amtrak roster - **Siemens' ACS-64** #600 "David L. Gunn", #627 and #648! This marks the first time that the Siemens' "Cities Sprinter" locomotive will be available individually, allowing modelers to build multiple trains to simulate all of the excitement of Amtrak Northeast Corridor in the comfort of their home or local club layout!

Also available for modelers using DC/Analog on their layouts is a specially designed Sound Card for the **Kato Sound box system** which replicates all of the sounds of the ACS-64 locomotive, from the bell to the horn all the way down to the regenerative braking system and the 60-second repeating cabin "stay alert" beep - all sounds captured from a real ACS-64 locomotive by the sound engineers at Soundtraxx!

Available Now!

Amfleet I Coach - Available in a 2-Pack #106-8002

Amfleet I Cafe - Included with a coach in 2-Pack #106-8003
