## F7 Santa Fe "Cigar Band" and "Blue Bonnet" A & B locomotives for your 50's - 70's freight consists

Classy and Classic Freight schemes for classic locomotives! Santa Fe's early "Blue Bonnet" and "Cigar Band" (all-blue) paint schemes are now available from Kato USA in F7A and F7B versions! The Cigar Band paint scheme release also marks the first time that Kato has made single-headlight F-units in a nearly a decade!

Matching crisp paint detailing with striking paint selection and Kato's legendary drives, these locomotives are a perfect addition to any pre-70's freight layout! Available in both Analog and DCC equipped variations (DCC is built to order, contact your hobby shop for details), these will give Santa Fe modelers a perfect reason to smile about having the blues!
