Truly "Great" Freight F-Units

Great Northern, Santa Fe "Bluebonnets", Santa fe "Cigar Band", and the upcoming Northern Pacific

The F-Unit is one of the most recognizable North American locomotives ever made - produced throughout the 40's, 50's and 60's in various iterations and showing up in both passenger and freight services on nearly every railroad in operation.

Today, Kato's F-Units are some of the most reliable and best operating North American locomotives you can add to your layout - enjoy smooth DCC-friendly operation while operating these locomotives as A, AB, or even ABBA sets. All A and B units are fully motorized for maximum performance.

The newest release in Kato's F-unit line, the Great Northern F7 two-locomotive set (available in two different road number pairs) is available at hobby stores now, and will be joined in June/July by a new Northern Pacific freight release!

Item #	Description	MSRP
#106-0420 NEW!	N EMD F7A + F7B Great Northern Set #444A, #444B	\$180
