N

The mainstay of freight railroading

EMD SD40-2

“Early” versions now available for order
for second delivery coming in May 2013!

One of the most popular and widely used second-generation freight diesels in American history, the EMD SD40-2 is returning to N Scale from Kato USA with a brand new production of “Early” and “Mid” type units (each with their own original mechanism) - with a pre-order only delivery of “Early” units available in March! Didn’t get into the pre-order group? Never fear! A second delivery of these popular freight diesels is scheduled to arrive in late May!

This delivery of the SD40-2 represents the “Early” phase of production (pre-1990), represented on these units by the use of ratchet brakes, no ditch lights vs. brake wheels and deck mounted ditch lights that are present on the “Mid” production models shipping later this year.

Contact your local hobby shop to purchase or reserve your second delivery unit today!

Item #176-4814	NEW N EMD SD40-2 “Early” with Dynamic Brake Wisconsin & Southern #4004	\$118 MSRP
Item #176-4815	NEW N EMD SD40-2 “Early” with Dynamic Brake Wisconsin & Southern #4006	\$118 MSRP
