AMTRAK'S FULL ANNIVERSARY LINEUP

Enjoy Amtrak's full lineup of HO GE P42 locomotives in 40th Anniversary heritage paint! Four uniquely painted locomotives each decorated in a manner that harkens back to Amtrak's Phase I, II, III and IV paint versions, each built using Kato's revolutionary truck motor design and available in both Analog and in pre-installed DCC+Sound variations - these locomotives will make great standalone units or fit right into your Amtrak Passenger trains in basic Superliner service - whatever your desires!

Revolutionary Design

Kato's GE P42 is the first ever Kato-designed HO model to use a brand new coreless "truck motor" design - this means maximum weight in the body for maximum pulling power and the possibility of service without the need for any disassembly of the locomotive!
