FEF-3 #844 FROM

KATO
PRECISION RAILROAD MODELS

Coming soon - the most recognizable and famous UP Steam Locomotive, the FEF (Four-Eight-Four), coming late 2014/Early 2015 from Kato USA! Featuring a number of revolutionary design innovations, including a coreless motor with dual flywheels for silky-smooth siderod operation at any speed (even a slow crawl!), Inside bearing wheels (where appropriate), and a special articulated undercarriage on the unique, 14-wheel Tender to allow the locomotive to navigate tighter curves and S-bends!
