

Rediscover The Silver Streak Zephyr

To call the “Silver Streak Zephyr” famous before its time would be to do the all-corrugated, slick stainless steel train a disservice. Named after a movie of the same name which featured the CB&Q’s distinctive corrugated equipment, the “Silver Streak Zephyr” and its specially built EMD E5A unit “Silver Bullet” was a short distance luxury train that operated between Lincoln, Nebraska and Kansas City with stops in Omaha and St. Joseph.

Pulled by the unique E5 locomotive, the Silver Streak Zephyr will make a return in September 2018, available now as an Analog set as well as with **ready-to-run DCC** and **DCC + Sound**. Sound units are built as special-order items, so contact your local hobby shop to reserve one today! Also available are individual E5 locomotives, both in their original black-and-silver paint as well as the later “red band” paint!

Item #176-5401	N EMD E5A CB&Q #9910A “Silver Speed”	\$110 MSRP
Item #176-5401-DCC	N EMD E5A CB&Q #9910A “Silver Speed” w/ Pre-Installed DCC	\$150 MSRP
Item #176-5401-LS	N EMD E5A CB&Q #9910A “Silver Speed” w/ ESU LokSound DCC	\$250 MSRP
