

# MAKING YOUR METRA CONNECTION

## MPI MP36PH

Towing commuters all across the Chicagoland area, the MP36PH was originally built by Motive Power Inc. for Metra starting in 2003. In 2020, Metra began repainting the entire roof section of these locos black to hide soot stains resulting in a cleaner sleeker look. Now, Kato USA is releasing this new look on their tried-and-true MP36PH model. Each locomotive features an operational headlight, red marker lights for push-pull operation, and is available for order in DC/Analog and DCC versions.

|                     |   |       |
|---------------------|---|-------|
| <b>176-6123</b>     | MP36PH Chicago Metra "Black Roof" #403  | \$140 |
| <b>176-6123-DCC</b> | MP36PH Metra "Black Roof" #403 with DCC | \$240 |
| <b>176-6124</b>     | MP36PH Chicago Metra "Black Roof" #424  | \$140 |
| <b>176-6124-DCC</b> | MP36PH Metra "Black Roof" #424 with DCC | \$240 |

## Metra MP36PH 4-Car Set & 3-Car Coach Set

Being pulled behind the MP36PH are Metra's iconic Bi-Level Gallery Cars. Kato's 4-Car set replicates these trains with 1 MP36 locomotive, 2 coaches, and a Cab Car with an operational headlight and red marker lights. For longer or additional trains, a 3-Coach add-on set is also available. Each set can also be ordered with additional pre-installed interior lights for even more realism!
