The KATO Amtrak P42 Starter Set is the Perfect Way to Get Started in HO!

The General Electric P42 locomotive is one of Amtrak's most popular engines, the engine is well known for its sharp and iconic look as it thunders down the line throughout the United States and Canada. The Amtrak P42 demonstrated a massive step in performance and technology from the previous used EMD F40PH. These dapper diesels are usually seen alongside Phase V and Phase IV paint schemes.
