

# A Chicago Classic Returns!

The EMD F40PH is an iconic diesel-electric locomotive that has become synonymous with Chicago Metra's Commuter Lines. As of 2023, Chicago Metra owns and operates 118 F40PH engines. Starting in 2017, Metra began to repaint certain locomotives to commemorate historic railroads and special events. In 2024, KATO's N-Scale Metra F40PH triumphantly returns with a Special "City of Chicago" livery to commemorate The Windy City! This Special Edition locomotive comes with a beautiful paint job representing Chi-Town's Iconic Skyline and Star Studded Flag!

These models come equipped with KATO Magnetic Knuckle couplers, directional LED headlights with illuminated preprinted number boards, and a strong five-pole motor with all-wheel electrical pickup!
